WHEN IMAGING MATTERS

## Affordable, Space-Saving Wide-Format Color Copier For The Office

### Key features

- Compact, space-saving single foot-print color copy solution
- Industry leading multi-function value
- Easy TOUCH operation with big buttons, delivers perfect copies in seconds
- Supports PDF, JPG, TIF file formats
- Scalable design, add features by license code
- Front paper delivery
- USB support for document mobility
- Recycled paper approved
- Collaborate immediately with Scan to net
- Low service requirements
- Supports all major brands, Canon, HP, Epson, Océ
- Eco-friendly, Energy Star certified
- Top Rated by Bertl

### The Smart Way To MFP Convenience

A Cx MFP solution can turn any new or existing printer into a copier, giving you the small footprint you need without compromising on performance and versatility. We've got an MFP solution for any environment—from occasional walk-up copying, printing and scanning in the office, to high-volume operator-driven services in reprographics departments, copy shops and printing and scanning service centers.

### Big performance, small footprint

A Cx MFP solution gives you intuitive, powerful walk-up scanning and copying without taking up any more floor space than your existing printer. You get outstanding image quality, with real-time view of enhancements and automatic cleanup of faded, dirty, or poorly shaded documents.

### Productivity Powerhouse

With simultaneous printing/copying while scanning, batch scanning, high scanning speeds, distributed copying and scanning to multiple printers, your Cx MFP solution will accelerate your processes. It will also help you streamline workflows with one-touch buttons and sharing over the network. For improved flexibility, you can exchange printers, work with different file formats and scan, copy and print any document. It even comes with a smart accounting feature that keeps track of billable services.

### Work better together

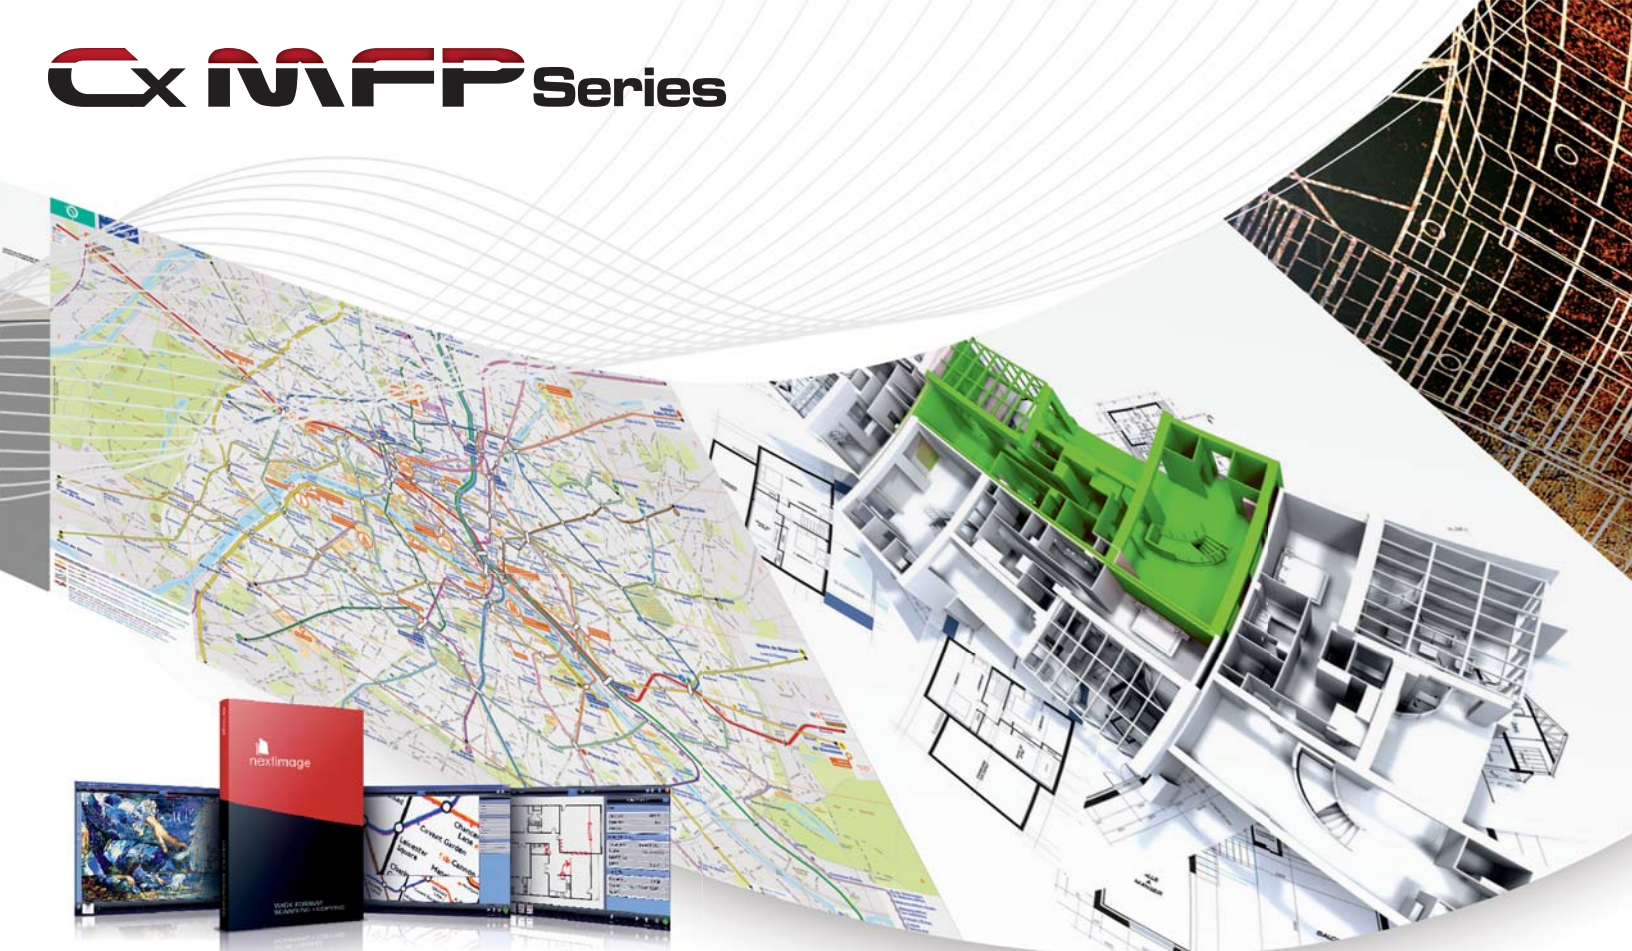

Communicate and share ideas, blueprints, drawings, sketches – in large format, in color and with no mistakes. Share mark-ups and drawing changes and revisions instantly with scan-to-net or scan-to-email capabilities. Mark-up, print, track changes and share digitally – no need for the original design

software. Even saves your files in any format of your choice.

### Get more from what you already have

No need to buy another printer or an expensive integrated MFP to get multi-function. With a Cx MFP solution you get powerful scanning and image enhancement features to help you get the right quality the first time. It fits in your office and connects to most large-format printers. And it's easy to use for anyone in your office, so you don't have to outsource scanning of wide-format documents any longer, saving you time and money.

## Wide-Format Scanning + Copying Software

Hands down the most powerful, productive easy-to-use wide format software available today. Why just scan? You can Copy, Print, Email, Edit, and Scan with Nextimage multi-function wide format software. It brings all your imaging tasks into one user-friendly interface, creating the perfect link between your scanner, digital storage, existing applications, and your printers. Intuitive and powerful, Nextimage makes your workflow more productive and more connected than ever before. Let it improve your image today.

### Connects to your workflow

Copy to your printers, Scan directly into your software, Scan to your email, Scan to other network PCs, even share your scanner with other network users.

### More scanning, less clicking

Nearly every feature or function of Nextimage software has been designed to make the scanner and user more productive – Less searching for the right settings, less adjustment to get the right quality, and less waiting to view results.

### Get a better image

Nextimage software delivers a complete set of tools to ensure image quality for both archiving and printing. Never before has it been so easy to get professional results – with minimal adjustment.

### Brilliant Interface

The Nextimage user interface has been designed for ease of use and customization. One big green button performs scanning, copying, email, and file saving. The settings panel lets you show only the settings you need – hide the ones you don't.

### Key features

- Integrated Multi-Function Software
- Touch-screen compatible - perfect for walk-up use
- Simple and Powerful GUI with clear controls
- Scan to multi-page PDF or TIF
- 64-bit Windows compatible 
- Real-time image adjustments – no re-scanning
- Scan to email sends images to anyone, anywhere
- Batch mode for higher volume jobs
- Supports full screen use
- Undo/Redo buttons and keyboard shortcuts
- ICC and Closed-Loop Color copying
- Auto palette creation for 8-bit indexed scanning
- AutoCAD 2011 compatible
